

Risk-score distributions over episode progress

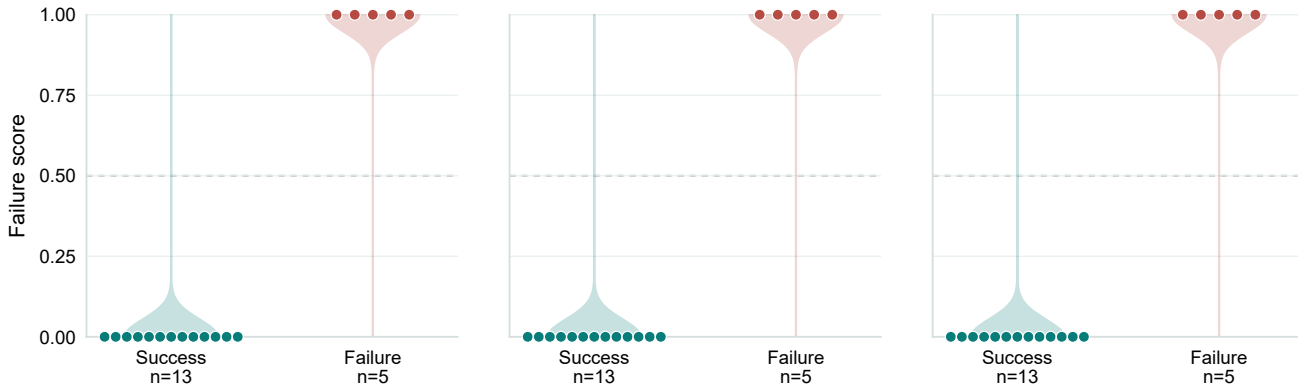

SpaceTime H120 | seed 3072 | checkpoint validation split

Violin: fixed-bandwidth boundary-reflected density | points: all 18 episodes at exact scores

a 0%

b 50%

c 75%

Violin smoothing bandwidth 0.055; failure scores saturate near 1 and success scores near 0.

Collection source and outcome co-vary in this validation split.
